LOCAL DEPARTMENT.

A Review of the Week's Doings of Interest to Local Readers.

The scientists have found a worm. A very vicious fellow; which makes the fierce mosquito squirm. And for assistance below. But when he has devoured that germ. What will protect us from the worm? -Lodi voted 70 to 13 for a union school.

-St. Francis' church has just been given a new roof. -Douglass Selover, of Trumansburg, has been liberated on bail.

-The lawn party for benefit of St. Francis Salanos church was very successful.

-We understand C. N. Cole has sold his house on Seneca street to Frank Swick.

-Concert and cake walk by colored waiters at the Cayuga Lake House to-morrow night.

-Tuesday afternoon lightning struck and burned a shock of wheat in Wheeler Bassett's field.

-Henry's Stock Co. in popular plays at the Boyer next Thursday, Friday and Saturday evening.

-The Woman's Missionary Society of the Baptist church will meet at the church parlors Thursday, August 18, instead of August 11.

-The ladies of the Reformed church will sell ice cream in the vacant store in the Wheeler block on Saturday evening, August 13th, for benefit of repair fund of that church.

-August 30-31, September 1 and 2 are the dates for the 46th annual fair at Trumansburg. Premium lists are now out. Copies can be had of D. S. Rappleye, director for the town of Covert.

-It is now, under the laws of this state, a misdemeanor punishable by fine and imprisonment, to drive a horse hired from a liveryman to any other place than that for which the horse is engaged.

-At the annual school meeting held Tuesday evening, the recommendation of the board of trustees for expense of ensuing year was adopted. Homer C. Case was elected trustee to succeed J. E. Moore, whose term expired, and who declined a re-election.

-If you fail to get your REVIEW any week we will appreciate it if you will drop us a card, or call at office and get one. Sometimes the label gets off, or wrapper bursts open in mail bag, and paper gets lost. There is no need to miss a single copy—if you will only inform us.

-For several years a swarm of bees has made headquarters in the steeple of the Reformed church, way above the bell. The repairs now underway necessitated ousting the bees, so they were removed Wednesday night, and nearly 150 lbs. of honey was secured by those who did the work.

-Livingston county picnic at Conesus lake, August 28. This is probably the largest gathering of pleasure seekers in the state, there generally being from 15,000 to 20,000. All kinds of sports, political log rolling, and addresses by democrat, probi and republican speakers are among the things that attract.

-John Perkins, of the town of Leicester, Livingston county, celebrated the 100th anniversary of his birth, on Monday, August 1. A public reception was held at his home, 2 1/2 miles from Geneseo, and a large number of friends and acquaintances called on the centenarian. He has lived on his present farm over 80 years.

-If Burdett is not the nearest village of its population to be found in the state we should like to know where the banner hamlet is. Certainly we should be at loss where to look for a farming community village of that size whose walks and lawns and dwellings have such a well kept air.—Watkins Express. Burdett has had six years the start of Farmer and therefore can out do us on walks, but on all other points Farmer can hold her a good row.

All together, now, and there won't be a burdock or rag weed standing by noon Saturday.

Henry's Stock Co.

Library hall is occupied this week by C. D. Henry's Stock Co. At the initial performance. It is their first appearance here; they caught the public fancy and have since been playing to audiences that more than tax the capacity of the house.

The company is fortunate in the possession of a star of such magnitude as Miss Norwood, the leading lady, and her artistic work has captivated all hearers. Gifted by nature with a charming stage presence and a voice that is clear and distinct in the most delicate shadings and modulations, she has combined with these the careful and studious result of experience, and together they rank her immeasurably above the average actresses that our play-going public have been accustomed to. Mr. C. D. Henry, the manager, is a "good man, weighing 265 lbs., as a New York paper once remarked of a Presidential candidate. He is a pleasant gentleman to transact business with, and pays 100 cents to the dollar. The company have 89 plays in their repertoire, and we trust they will favor Newton with a visit again in the future.

-Newton, N. J. News.

Traced Back to 1690.

The Watkins Express says: The family of Hawes, or Hause as it is quite as often spelled, is one of the few in our country which have a matter of record genealogy extending far back in the centuries. Through the efforts of Alfred B. Hause of Ovid and Dr. James P. Hawes of Valois the family line has been carried back to 1690 when the John Hause, to whom they trace, was an infant born in Germany and cousin of Queen Mary II of Great Britain. In 1715 this John Hause married, in New York city, Sarah Allen, and from that union the present Hauses are descended. All down the generations the families have been large—not unusually 12 or 14 children, and as a consequence the Hauses have multiplied on the face of the earth. They seem to have been also upright and God-fearing people and Dr. Hawes laughingly remarked that the most discreditable affair he found hanging on the family tree was one elopement. The Doctor has had the genealogy of the Western New York branch put in print for distribution among his kinsfolk of the name.

-A farmer was once trying to mend his mowing machine by the roadside, when an automobile came puffing along. The manager stopped his auto and said: "Hello, old man." "Good mornin'," said the farmer, "and what do you call that air thing?" "This? O, I call this an auto-to-mo-bile. What do you call your vehicle?" "Wall, this is an auto-to-mo-hay, but I'll be dum swayed, if it will."

-A Vesper Service will be held at Glenwood Lodge, the home of Mrs. C. Rappleye, at Kidders, next Sunday evening at 7.15 sharp. Music and short talks by Dr. Haines and Edward Evans, Jr.

Reformed Church Notices.

Through the courtesy of the Baptist church, services will be held in their edifice during August. The pastor will preach Sunday morning on the theme, "The true object of service," and in the evening on "The foundation of faith." Sunday school at 11:45 a. m.; young people's meeting at 6:45 p. m. -The total coal production of the United States in 1903 was 359,421,311 short tons. This would cover an area of 22 square miles to the depth of 25 ft. If loaded on coal cars, 30 tons to car, it would make a train encircling the globe three and one third times at the equator.

-A bird's nest was found in a bunch of bananas, recently, in a store in Syracuse. The nest contained two eggs of a variety that have not yet been identified by any that has seen them. They are small, white, and dotted with golden spots. The nest is made of grass, and is not unlike many to be found in these parts. The bananas came from Jamaica, and it is supposed that the nest and eggs belong to the feathery tribes of that tropical country.

Village Affairs.

The board of trustees held their regular monthly meeting last Monday evening, at the engine room. A meeting of the fire company being called at same place for that evening, the trustees adjourned to the REVIEW office, where the regular meetings will hereafter be held, the firemen expected to be session in their rooms at the same hour. Village ordinances were adopted and ordered published as the law directs. They will be found in the REVIEW to-day. The collector's warrant was extended 15 days, and he ordered to levy and collect every poll tax. Action on petition from residents of Orchard street, asking for another street light at head of that street, was deferred until August 15th, to which date adjournment was made.

Band Concert To-morrow.

Through the kindness of Rev. M. T. Madden the large tent and grounds used for the lawn party at St. Francis church have been given over to Miller Silver band, and they will give a concert there to-morrow evening, Saturday, August 6th, and will sell ice cream. They hope the people will turn out and patronize them so they can get out of debt.

-One of our exchanges tells the following story and vouches for its truthfulness. The class in geography was being examined by the lady teacher in our High School the other day. She said: "You have in front of you the North, on the right the East, and on the left the West. What have you behind you?" Little Charley, who was deeply interested in the points of the compass, after a moment's reflection replied: "A patch on my pants." Then in a shamefaced manner he added: "I knew you would see it; I told ma you would."
