

ORGANIZATION OF THE STATE LEAGUE

ITS OBJECTS AND ADVANTAGES. THIS ORGANIZATION IS DESIGNED to operate against the liquor traffic, employing all available means to counteract, oppose, and suppress this enemy to our civil and religious institutions.

IT IS DESIGNED to combine individual influence with individual effort, and a concentration of many individuals through the merits of our efficient organization.

IT IS DESIGNED to indicate those who are in favor of its object, and opposed to run rule.

IT IS DESIGNED to bring these names before the public as subscribers to the League Pledge, and members of the League Organization, for mutual support and mutual protection, and the every commendable object of human reform.

THE ADVANTAGES of this organization are: 1st. It serves to concentrate the influence and power of its members upon any particular object to be attained.

2nd. It enables the members to act under standingly and harmoniously, thus increasing the chances of success.

3rd. It provides members with means of knowing their friends, drawing a line of demarcation in society, enabling them to determine who are in sympathy with their movements, and on whom they can rely for the support of their measures.

ALTHOUGH this is a secret organization, its design is to concentrate the efforts and influence of those opposed to the liquor traffic and to this end all who are in favor of the object are invited to identify themselves with the organization.

LIFE MEMBERS are entitled to participate in all the deliberations of the Society, and by the payment of ten dollars are installed for life, and will receive the Weekly Paper three years without further charge. For further particulars see first column of first page of this number.
